

Encoder Quick Start Guide for YouTube

(For pre-configured encoders)

NVS-34

NVS-33

HS-1600T MARK II

HS-3200

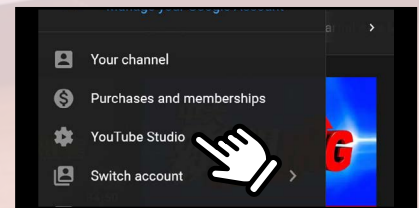

HS-1300

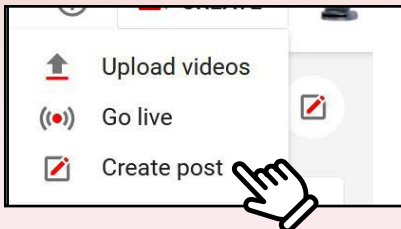

1. Turn on the encoder. If you are using an "HS" switcher, then the encoder is already on.

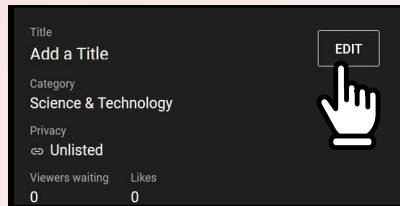

2. Power on the video source (camera, switcher, etc.)

3. Open your organization's YouTube Studio page.

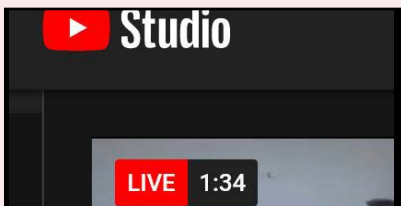

4. Click "Create" then "Go live"

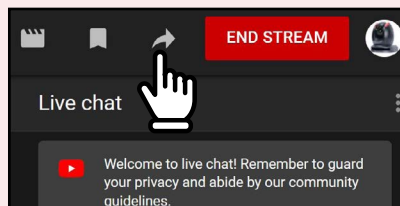

5. Click "Edit" to add a title and description to your stream and to change the privacy and category settings.

6. On the encoder, press and hold the "stream" button for 3 seconds until the blinking red button becomes solid red.

7. Your stream will start automatically.

8. To share your stream, click the share button.

To configure your encoder, please visit www.datavideo.com/streamsetup
